

NEED **MORE** FROM YOUR CURRENT **IT SET UP?**

MEET BUSINESS GO. THE ALL IN ONE TECHNOLOGY BUNDLE THAT GROWS AS YOUR BUSINESS GROWS.

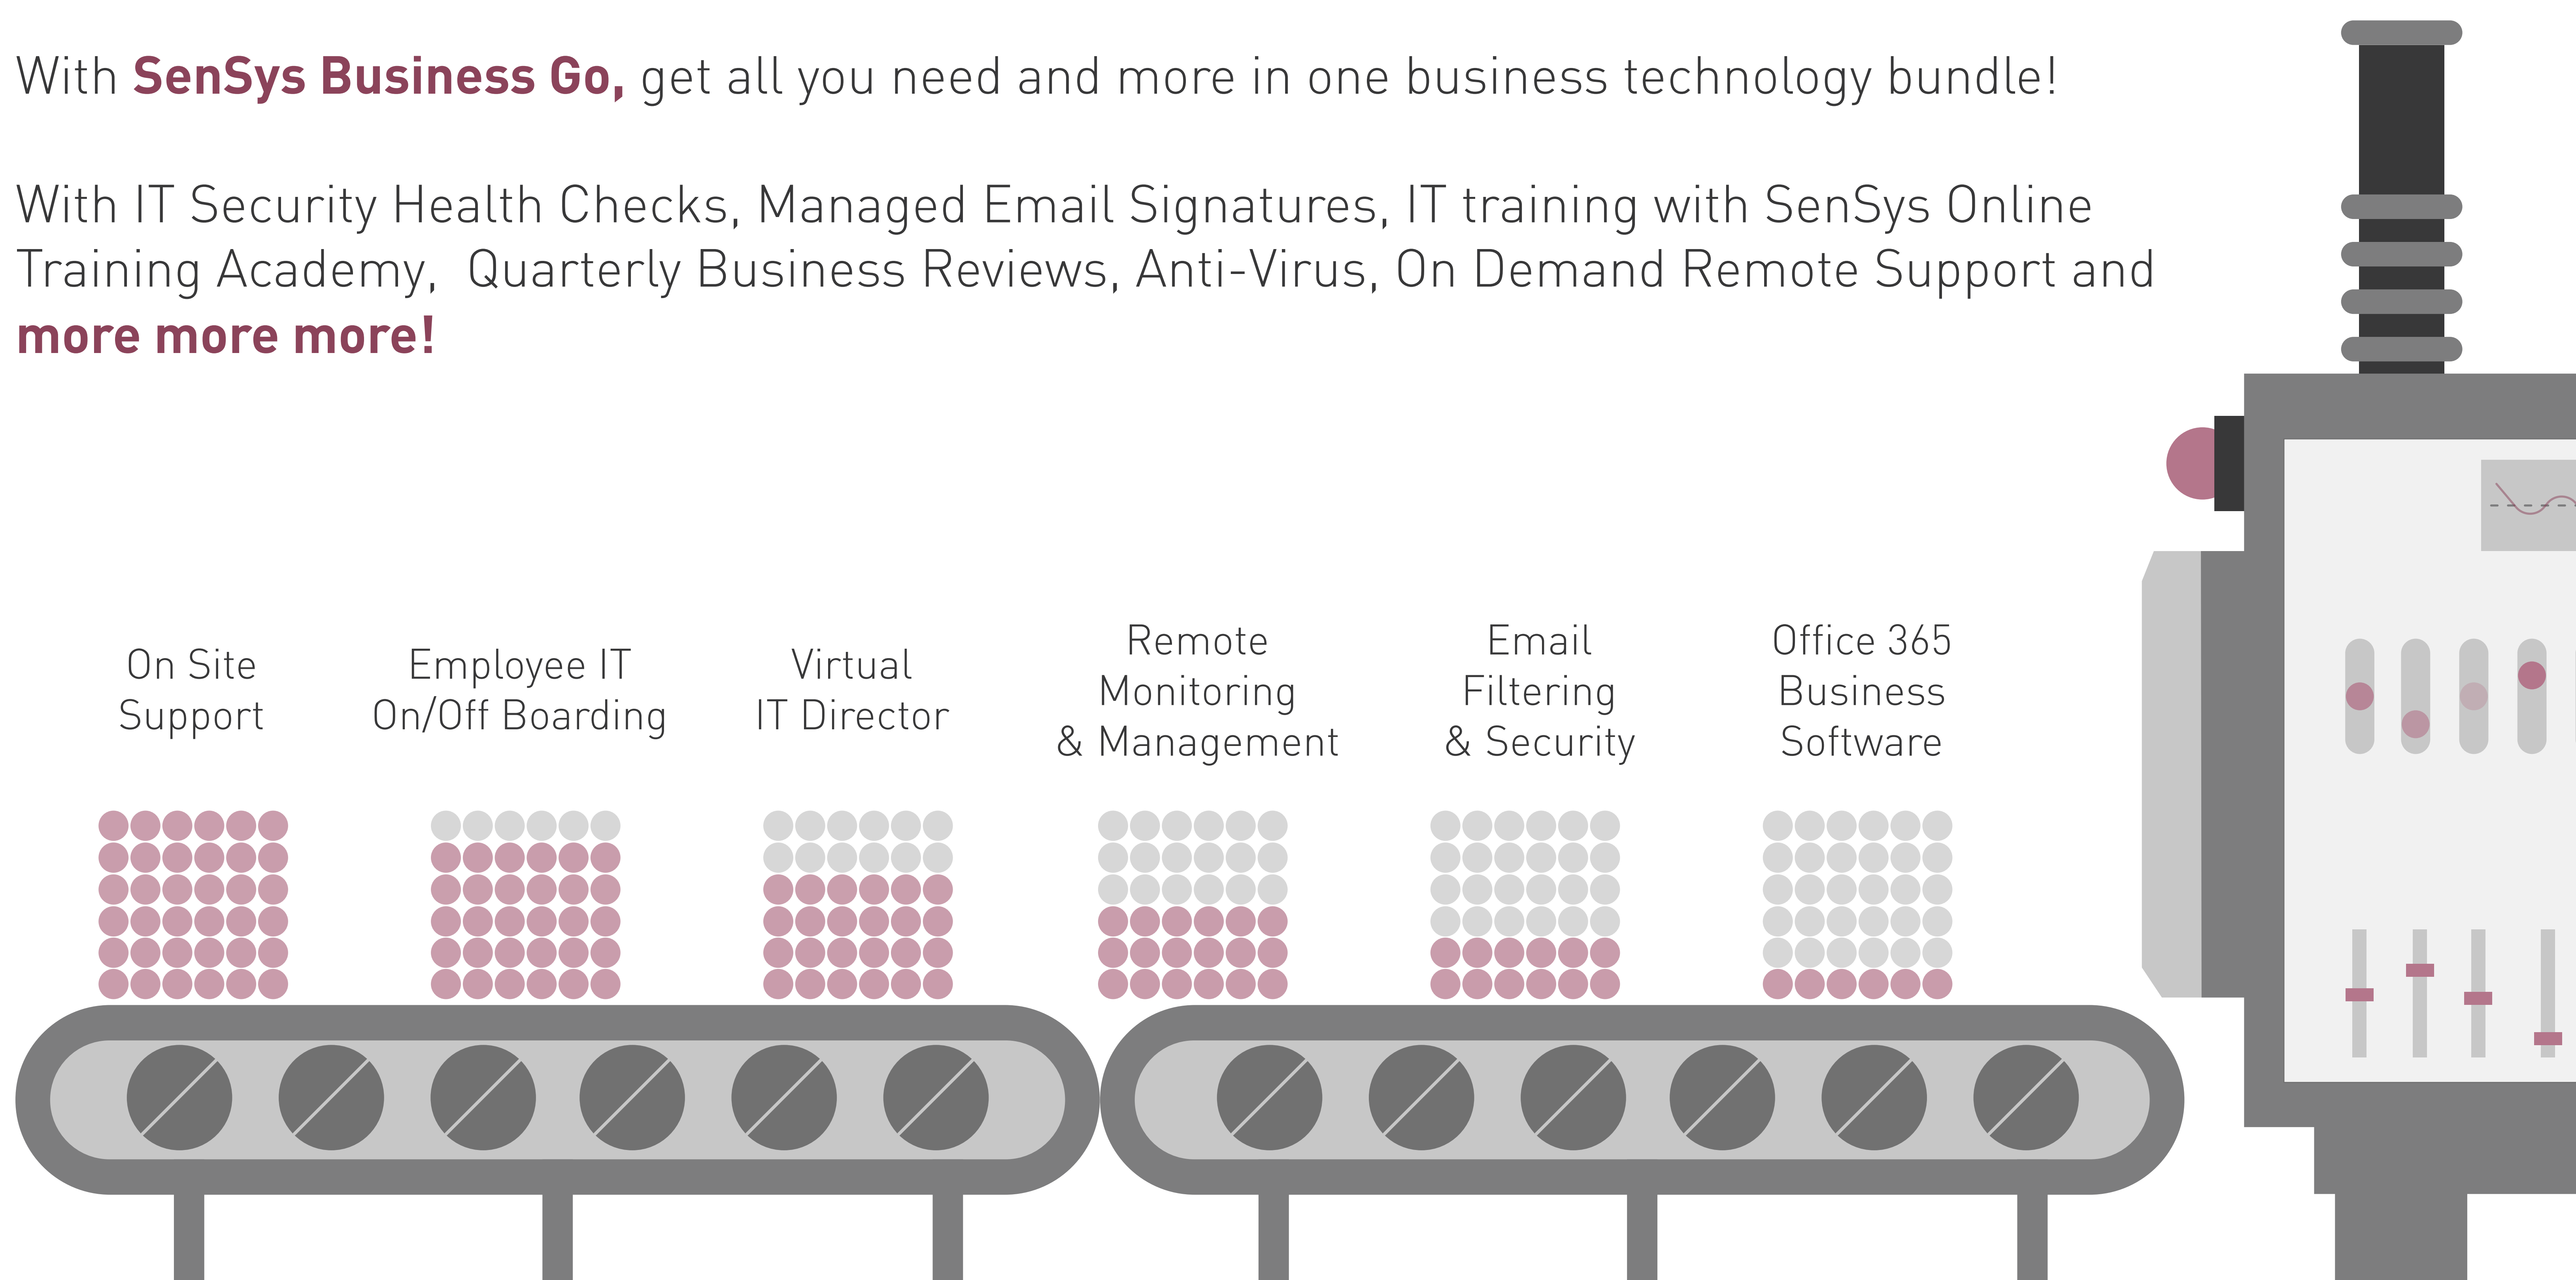

WHAT IS BUSINESS GO?

- Business Go is **100% customisable** to your business.
- Business Go will **include all the essential IT components** that you need with other options to add on some key services.
- Adopting a monthly SAAS model means easier budgeting.
- Most of our medium size business clients who have packaged the IT components choose a Business Go bundle.

THERE IS NO NEED FOR GROWING BUSINESS TO **REINVENT THE WHEEL** WHEN IT COMES TO **IT**

With **SenSys Business Go**, get all you need and more in one business technology bundle!

With IT Security Health Checks, Managed Email Signatures, IT training with SenSys Online Training Academy, Quarterly Business Reviews, Anti-Virus, On Demand Remote Support and **more more more!**

BUSINESS GO **CUSTOM COMPONENTS**

01 | ONGOING DAY TO DAY IT SUPPORT

You will be provided with a dedicated IT contact and access to our in-house support desk. Our SLA response for critical issues is 4 hours on site, however all remote issues will be acknowledged within 15 mins. Our highly skilled and knowledgeable support team will liaise with you to resolve any issues, provide training or consultancy and update you once complete.

02 | OFFICE 365 BUSINESS STANDARD

Microsoft Office Standard 365 is perfect for businesses that need full remote working ability and collaboration tools. Including Microsoft Teams, Secure Cloud Storage, Business email, and Premium Office applications across devices.

03 | VIRTUAL IT DIRECTOR

This is a dedicated IT Contact for your business. SME's generally do not employ in-house IT directors so your IT contact will act as a part of your team with the aim to improve the businesses efficiency and processes through technology.

04 | REMOTE MONITORING AND MANAGEMENT

Each desktop PC will have SenSys RMM (Remote monitoring and management) installed to ensure all PCs are up to date, patched and secure. Our RMM solution allows us to monitor optimum performance on all hardware devices.

05 | CONSULTANCY

The SenSys Technology team includes experts in the area of IT Professionals, Network Professionals, Telephony, Security Professionals and Business Communication Professionals. We are here to assist you with improving business efficiency and productivity through the use of technology.

06 | ANTI-VIRUS AND EMAIL SECURITY

Our SenSys Business GO package includes Enterprise Anti-Virus and Email Security software on all desktops and email accounts.

07 | MANAGED EMAIL SIGNATURES

Dynamic & Professional Email Signatures within your Microsoft Cloud environment, and integration with Microsoft 365. Managed by SenSys.

08 | TRAINING

Staff Training Quarterly - Your staff will have an ongoing opportunity to train and up-skill on any areas of IT they need, e.g., training on using Microsoft Teams, collaboration documents, sharing encrypted files etc.

09 | SAAS BACKUP

This is a backup solution for Microsoft 365. Microsoft does not back up your data beyond 30 days. Mail, Contacts, Calendars, SharePoint, OneDrive and/or Teams are backed up by SenSys SAAS Protection which is a true backup solution and recovery for files and folders, and will provide automated continuous backups.

10 | QUARTERLY BUSINESS REVIEW

A quarterly review with your IT contact or account manager to review the businesses current position and IT needs.

11 | ONGOING IT SECURITY AND HEALTH CHECK

The SenSys team will proactively monitor the security and performance of the IT System. Leaving you with peace of mind to run the day to day operations.

12 | EMPLOYEE IT ONBOARDING & OFF-BOARDING

As new staff members join your team, or existing staff leave; SenSys Technology will manage the full onboarding and off boarding IT process. From configuration of laptops, devices and software, to IT training and company policies.
